

# Information for Guaranty Agencies on Uncorrected Data Adjustments

A guaranty agency should NOT review a school's uncorrected data adjustment. Schools must submit all uncorrected data adjustment material directly to the U.S. Department of Education (Department).

If a guaranty agency receives an uncorrected data adjustment from a school, it should **immediately** contact the school to inform it that the uncorrected data adjustment must be sent to the Department at the address shown on page 93 of the "Uncorrected Data Adjustment" section. The agency should also indicate that the request must be sent to the Department within **30 calendar days** of the school receiving its official loan record detail report.

The guaranty agency should notify the Department's Default Management Division that it has contacted the school.
