# COD and Direct Loan Processing

# Objectives

- What's New for COD and Direct Loan?
- COD and Direct Loan Processing Updates
- COD Customer Service Updates

# What's New?

# Direct Loan Changes for 2003-2004

- New MPN for Subsidized/Unsubsidized Loans
  - MPN used for Subsidized/Unsubsidized Loans in 2002-2003 expired August 31, 2002
  - New MPN for Subsidized/Unsubsidized with October 31, 2005 expiration date is available on the Direct Loan website, on IFAP, or through the COD School Relations Center
  - Due to delays in delivering new version of MPN, FSA has issued DLB 03-21 on June 27, 2003: Modification to guidance provided in DLB 03-20 (MPN for Sub/Unsub Loans for 2003-2004)

# Direct Loan Changes for 2003-2004

- For 2003-2004 loans:
  - Schools must begin using the new Sub/Unsub MPN with the October 2005 expiration date immediately for ALL new loans
  - COD will continue to accept MPNs with the August 2002 expiration date that are signed before October 1, 2003 provided that:
    - Variable data on the notes is legible and has not printed over other text
    - MPNID printed on the note is appropriate for a 2003-2004 loan
  - COD will NOT accept MPNs with the August 2002 expiration date that are signed on or after October 1, 2003

# Direct Loan Changes for 2003-2004

- For 2002–2003 loans:
  - COD will continue to accept MPNs with the August 2002 expiration date regardless of the date the MPN was signed
  - COD will also accept MPNs with the October 2005 expiration date

# Direct Loan Changes for 2003-2004

## ■ New PLUS MPN

- Starting with award year 2003-2004 and forward, PLUS loans use a PLUS Master Promissory Note
  - Parents borrowing for more than one student must complete a separate MPN for each student
  - Student signature is NOT required for a PLUS MPN
  - If a borrower requires an endorser, the PLUS MPN becomes a “single-loan” MPN and cannot be linked to other loans
- New PLUS Borrower’s Rights and Responsibilities
- PLUS Disclosure Statements or Plain Language Disclosure Statements are required

# Direct Loan Changes for 2003-2004

- PLUS eMPN
  - The URL is the same for both the PLUS and Sub/Unsub versions
  - The PLUS MPN process follows the Subsidized/Unsubsidized steps
  - There is a link for borrowers to determine if they need to complete a PLUS or Sub/Unsub note
  - The parent borrower needs a PIN to complete an eMPN
  - Credit decision does not have to be made before a PLUS eMPN is completed

# Timeline for DLOS Archive and Shutdown

- DLOS award years 99-00, 00-01, 01-02 will be archived by the end of August

- July 1 **Web message** on the DLOS web site alerted schools that DLOS award year data will be archived
- July 15 **Last day the DLOS system will receive records**

# Timeline for DLOS Archive and Shutdown

**AUGUST**

- August 29

**Data Archived**

**SEPTEMBER**

# COD Focus Group

## May 15-16, 2003

- Over the course of two days, 24 schools and 5 vendors generated hundreds of ideas on the following topics:
  - Reports
  - COD Web Site
  - Common Record/Schema
  - Customer Service
  - Direct Loan Processing
  - Pell Processing
  - Edits
- We have incorporated some of these ideas into changes for the 2004-2005 Award Year
- Thank you for participating in the 2004-2005 Requirements gathering process.
- If you would like to participate in future focus groups, please give a COD team member your business card

# Participant Status for 2004-2005

- COD will accept Phase-In Participant records in 2004-2005
- All schools must be Full Participants using the XML Common Record in 2005-2006
- Reminder: EDEExpress users are Full Participants beginning in 2003-2004

# Campus Based Changes for 2004-2005

- COD will accept and process all Campus Based award and disbursement data from Full Participant schools for the 03-04 and 04-05 award years and forward
- Campus Based award and disbursement data will be viewable on the COD web site

# Direct Loan Changes for 2004-2005

- Anticipated Disbursement information is required to establish all Direct Loan awards.
  - The sum of the disbursement information (anticipated and actuals) must be equal to the award amount
  - COD web site will be modified to allow more than one disbursement to be created when creating an award

# Direct Loan Changes for 2004-2005

- If a school submits a decrease to an award amount without adjusting the anticipated disbursements, and only anticipated disbursements exist on the award, COD will recalculate anticipated disbursements for the school
  - COD will begin recalculation with the highest disbursement number
  - If actual disbursements exist, new award amount can not be less than the sum of the actual disbursements (edit 41). Anticipated disbursements will not be recalculated

# Direct Loan Changes for 2004-2005

- The Direct Loan Program will not process pennies
  - The Common Record allows Full Participants to report pennies in the Award Amount tag
  - If a school submits pennies in the Direct Loan Award Amount, the COD system will truncate the cents to the right of the decimal

# Message Class Changes for 2004-2005

- Full Participants will have the option of using message classes that are specific by
  - Program
  - Award Year
  - Program and Award Year
  - General (e.g. COMRECIN, COMRECOP)
  - Receipts
- The 04-05 COD Technical Reference draft published in August will contain specific message class names

# SAIG Transmission Header Changes for 2004-2005

- SAIG has increased the variable field on the SAIG Transmission Header from 26 characters to 50 characters
- The SAIG Transmission Header will be populated with the entire Document ID for Full Participants and the Batch ID for Phase-In Participants
- If a school uses the variable space for other data on the incoming record, COD will not overwrite this data with the Document ID or the Batch ID

# COD Web Site Changes for 2004-2005

- “Batch ID” will be changed to “Document ID”
- Batch Search Results List
  - Batch Search screens will contain Award Type and Doc Type fields and permit filtering by these fields
  - Date Received and Date Response field will be separated into two individual fields. Date Received will indicate the date the batch was received by COD and Date Response will indicate the date COD sent a response to the school
- Batch Record Detail
  - Batch Record Detail will be split into two portions. The upper portion will contain the batch information sent by the school and the lower portion will contain the data sent out by COD in the batch response and in system generated responses

# Direct Loan Processing Update

- Direct Loan Report Issues
  - The Direct Loan Rebuild report is not available
  - School Account Statement (SAS) is accurate for most schools, but for some schools it may contain:
    - inaccurate booked dates
    - missing or incorrect financial information in the cash detail section
    - discrepancies between the beginning cash balance of one month and the ending cash balance of the previous month

# Direct Loan Processing Update

- Promissory Note Issues
  - MPN expiration dates of ten years are not displaying correctly on the COD web site. Instead, these notes appear as if they have a one year expiration date. COD has implemented code fixes and is cleaning up affected P-notes
  - Electronic Promissory Note web site is timing out when borrowers are completing eMPN's. Schools are encouraged to submit paper promissory notes for students affected by this situation

# Direct Loan Processing Update

- PLUS Loan Endorser and Credit Check Issues
  - PLUS endorsers were not being processed and were not viewable on the COD web site
  - COD was not generating Credit Check Acknowledgements. Code fix has been implemented and COD is currently cleaning up data on affected awards

# Direct Loan Processing Update

- Actual Disbursements Not Displaying Correctly in COD
  - 2002-03 Phase-In actual disbursement batches (#H) are accepted but the Disbursement Release Indicator was displaying “False” on the COD web site instead of “True”. In some instances, this issue was prohibiting schools from receiving proper funding and was producing inaccurate Funding Disbursement List (FDL) reports

# Direct Loan Processing Update

- Data Corrections
  - Major financial code fixes were implemented in April 2003. Issues were localized to 2002- 2003 award year. However, some schools are receiving incorrect payment amounts due to ongoing data clean up
  - The COD Summary Financial Information screen is displaying incorrect figures in the Disbursement Amount, Disbursement Adjustment Amount, and Ending Cash Balance fields due to ongoing data clean up
